Re: HOC Final Report

Dear colleagues:

Looking back the past two years, I can't help to feel humble and privileged to have served HOC in this capacity.

HOC is a unique public health organization in BC as well as in Canada. It is well recognized that the leadership and contributions made by HOC members, significantly influenced public and population health policy in BC over the past two decades. Correspondence between HOC and several ministries, public health partners and agencies, reflected the commitment of HOC to improve health for all in our communities in BC. During this period, HOC also endorsed various organizations aimed at improving population health.

I want to say welcome to all our new members and I am convinced they will enjoy the HOC team and their contributions will be appreciated. Also, I want to thank all our senior members for their wisdom and input to make this organization so successful.

We would like to thank to Dr William Osei for his role as treasurer past two years.

Again, I would like to welcome and congratulate Dr Marcus Lem as the new Chair of HOC. We are looking forward to his leadership and to work with him on our HOC journey over the next few years.

Sincerely,

Dr Charl Badenhorst MD
Chair HOC
